Who is this Course For?

The Anaphylaxis first Aid training course is designed to help staff who support adults or children with anaphylaxis. Training will equip you with the skill and knowledge to be able to respond to the condition in a confident manner. This includes the safe administration of an EpiPen. The 3 hour course is focused towards adult carers or staff who works in a child care environment such as child-minders. Nursery staff and early year's staff.

Content

- Causes of anaphylaxis
- Signs and symptoms
- Assessment of casualty
- Treatment using auto-injectors
- Chain of survival
- Principles of resuscitation

Assessment and Certification

Whilst there is no final exam, the tutor carries out continuous assessment and candidates receive a Certificate of attendance valid for 1 year
